

# LED Flood Light 12V DC / 10W

This LED flood light gives off 1000 lumens of cool white light, making it ideal for outdoor lighting solutions.

A 12V DC power supply is required to use this light. To see our available power supplies, see the Compatible Products tab.

## Product Specifications

### LED Properties

|                        |         |
|------------------------|---------|
| Controlled By          | Relay   |
| Flood Light Brightness | 1 klm   |
| Beam Angle             | 120°    |
| Color Temperature      | 6250 K  |
| Flood Light Lifespan   | 50000 h |
| Supply Voltage Min     | 12 V DC |
| Supply Voltage Max     | 12 V DC |
| Current Consumption    | 830 mA  |

### Physical Properties

|                           |                            |
|---------------------------|----------------------------|
| Material                  | Aluminium Case, Glass Face |
| IP Rating                 | IP65                       |
| Weight                    | 500 g                      |
| Operating Temperature Min | -60 °C                     |
| Operating Temperature Max | 80 °C                      |
