

2-Pin Circular Cable Connector (Female)

This connector is the female half of a connection that will allow two cables to be securely connected while protecting the connection from the elements. It also allows for quick and easy detaching if you want to switch between external sensors for example. This connector is suitable for cables from 3 – 8mm in diameter.

Connection

Here is the complete set up with both halves of the connector. Both halves sold separately.

Product Specifications

Physical Properties

Number of Conductors	2
IP Rating	68
Connector Type	Female

Cable Connectors

You can attach this connector to another by pushing to two together and twisting the ring on (the ring is part of the female connector). This cable connector mates with the following male connectors:

Product		Physical Properties	
Part Number	Number of Conductors	Connector Type	
CBL4411_0	2	Male	
CBL4412_0	2	Male (Enclosure)	

Multi-conductor Cable

Multi-conductor cable is great for organizing multiple wires into a single cable. Just cut and strip the ends of the wires and solder them onto the connector's pins. Here's a list of 2-conductor cable we have for sale:

Product		Physical Properties	
Part Number	Number of Conductors	Cable Gauge	Insulation Material
CBL4300_0	2	16 AWG	PVC
