

2 Conductor 16AWG Wire Black

Product Specifications

Physical Properties

Cable Gauge	16 AWG
Insulation Material	PVC
Number of Conductors	2
Wire Material	Copper

Cable Connectors

Creating a disconnect/reconnect point can be tricky for multi-conductor cables. These cable connectors make it simple; just strip and solder the two ends of the multiconductor cable to two cable connectors of opposing gender, and screw the two connectors together. Some cable connectors are designed to sit inside the wall of an enclosure but otherwise fit together in the same way.

Product	Physical Properties	
Part Number	Number of Conductors	Connector Type
CBL4410_0	2	Female
CBL4411_0	2	Male
CBL4412_0	2	Male (Enclosure)
