

4 Conductor 16 AWG Wire Black

Product Specifications

Physical Properties

Cable Gauge 16 AWG
Insulation Material PVC
Number of Conductors 4
Wire Material Copper

Cable Connectors

Creating a disconnect/reconnect point can be tricky for multi-conductor cables. These cable connectors make it simple; just strip and solder the two ends of the multiconductor cable to two cable connectors of opposing gender, and screw the two connectors together. Some cable connectors are designed to sit inside the wall of an enclosure but otherwise fit together in the same way.

| Product | Physical Properties | |
|-------------|----------------------|--------------------|
| Part Number | Number of Conductors | Connector Type |
| CBL4401_0 | 4 | Female |
| CBL4402_0 | 4 | Male |
| CBL4403_0 | 4 | Female (Enclosure) |
