[LJTick-DAC](#)

Provides a pair of 14-bit analog outputs with a range of +/- 10 volts. Plugs into any digital I/O block, and thus up to 10 of these can be used per LabJack to add 20 analog outputs. Works with the T7 and any UD family device (U3/U6/UE9), except for U3 hardware revision 1.20 (U3A)

For more information, see [the LJTick-DAC Datasheet](#) and our [LJTickDAC utility](#), an optional a cross-platform setup/testing application available for UD family devices.

RoHS:

Yes
