<u>Linear Potentiometer - KTC-200mm</u>

The KTC series linear potentiometer is designed to provide position feedback for systems with moving parts. This potentiometer can extend to a length of 200mm and is protected by an anodized aluminium outer casing.

This sensor can be used with any device with an analog input. Simply cut and connect a 3-wire Phidget cable as described in the Phidget Cable section on the "Compatible Products" tab.

Comes Packaged with

- 2 Mounting Brackets
- A Wiring Harness with Cap
- A Rubber Seal
- A Ball Joint Attachment
- 4 Mounting Screws

Sensor Properties

	•
Sensor Type	Input (Linear)
Controlled By	VoltageRatio Input
Linear Travel	200 mm
Potentiometer Impedance	e 5 k?©
Repeatability Error Max	0.005 %
Physical Properties	
Material	Anodized Aluminium
IP Rating	IP65
IP Rating Lifespan	IP65 100 million actuations
