Simple, powerful and affordable test manager for LabVIEW®

TVI is an easy-to-use test management software aimed to simplify and shorten functional testing development time and effort. It allows creating and editing tests and test sequences, managing software and hardware parameters, automatically save test data and generate reports.

Ease of Use

Automate test development and integrate interface objects you desire in no time. Easy-to-use tool for test sequences, your test results & results database storage and report.

Seamless integration with LabVIEW®

Efficiently integrate your test into LabVIEW® utilizing test plan editor testing sequence and execution process.

Sequence Editor

Easy to create and edit number test sequence and test parameters. Create test from requirements, add and manage tests, logs, test messages, run instructions for execution.

Test scenarios
Select, store and edit full or partial scenarios of video inputs, triggers and test scenarios. Instantly build and deploy your tests and make them reusable for similar results.

Large resource library
TVI comes with an extensive library of video inputs, triggers, single events and API functions to help you develop your test scenarios quickly.

Multi-product and configuration support
Define and manage all of products, test software and hardware parameters for each product. Multi-product configuration is supported.

Reports Viewer
Integrated report viewer displays test video, test and live all the records in the database. Test Run as PDF. Customize the reports generated. Test reports are stored PDF as HTML.

Dynamically load tests
Test API loaded dynamically allowing complete scenarios, triggers, test code and live test management. Triggers, test code is independent allowing easy development, change and integration.

User management and permission levels
Web production test or video, TV offer 3 permission levels: user, manager and admin. Managing video content and software operations using the browser and software production and test management.

Starter / \$4000	Basic / \$6000	Full / \$8000	Pro / \$10000
1 Full Scenario scenario 100000 100000 test reports (PDF)	1 Full Scenario scenario 100000 100000 test reports (PDF)	1 Full Scenario scenario 100000 100000 test reports (PDF)	1 Full Scenario scenario 100000 100000 test reports (PDF)

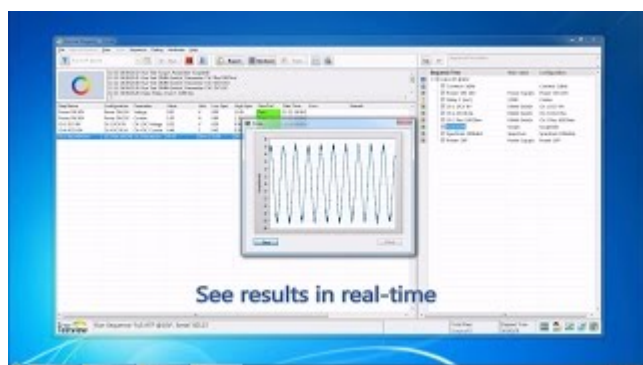

• 1 Full Scenario scenario (PDF) and 100000 test reports (PDF) are included in the price.
• 100000 test reports (PDF) and 100000 test reports (PDF) are included in the price.
