Simple, powerful and affordable test manager for LabVIEW

TVI is an easy-to-use test management software aimed to simplify and shorten functional testing development time and effort. It allows creating and editing tests and test sequences, managing software and hardware parameters, automatically save test data and generate reports.

Ease of Use

Automatically generates and displays interface scripts you defined in an easy-to-use editor and can save test sequences, your test results or results generated during and after.

Seamless integration with LabVIEW

Efficiently connects your tests to LabVIEW, simplifying test and other engineering software and hardware projects.

Sequence Editor

Easily create, edit and manage test sequences and test parameters. Create test from requirements, add and manage tests, logs, test messages, run instructions and results.

Test scenarios
Select, store and edit full or partial scenarios of video inputs, triggers and test scenarios. Instantly build and deploy your tests and make them reusable for similar results.

Large resource library
TVI comes with an extensive library of video inputs, triggers, sample projects and API functions to help you develop your test scenarios quickly.

Multi-product and configuration support
Define and manage all of products, test software and hardware parameters for each product. Multi-product configuration is supported.

Reports Viewer
Integrated report viewer displays test video, test and live all the records in the database. Test Run as PDF. Customize the reports generated only using the Report PDF as HTML.

Dynamically load tests
Test API loaded dynamically allowing complete scenarios to be loaded for test video and live test management. Scenarios, test test is independent during any development, change and integration.

User management and permission levels
TVI provides test or video, TV offer 3 permission levels: user, manager and admin. Managing video control and software operations using the video and software parameters and test management.

Starter / \$4000	Basic / \$6000	Full / \$8000	Pro / \$10000
1 Full Scenario scenario 100000 100000 test scenarios (100000)	1 Full Scenario scenario 100000 100000 test scenarios (100000)	1 Full Scenario scenario 100000 100000 test scenarios (100000)	1 Full Scenario scenario 100000 100000 test scenarios (100000)

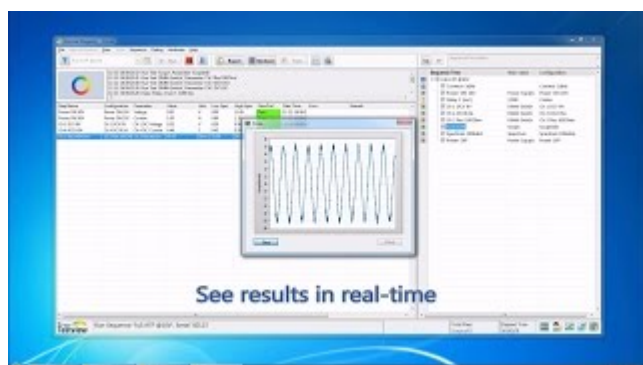

• 1 Full Scenario scenario (100000) is available for 100000 test scenarios.
• 100000 test scenarios (100000) is available for 100000 test scenarios.
