Simple, powerful and affordable test manager for LabVIEW

TVI is an easy-to-use test management software aimed to simplify and shorten functional testing development time and effort. It allows creating and editing tests and test sequences, managing software and hardware parameters, automatically save test data and generate reports.

Ease of Use

Automatically generates and displays interface scripts you defined in your code. Easy-to-use test run tree sequences, your test results at multiple execution stages and reports.

Seamless integration with LabVIEW

Efficiently connects your code to LabVIEW, prioritizing test plan understanding alongside your execution process.

Sequence Editor

Quickly create, edit and monitor test sequences and test parameters. Create multi-step sequences, add and manage tests, logs, test messages, run instructions and reports.

Test scenarios
Select, store and edit full or partial scenarios of video inputs, triggers and test scenarios. Instantly build and deploy your tests and make them reusable for similar results.

Large resource library
TVI contains an extensive library of video, images, images, images and MP3 location to help them support the hardware features.

Multi-product and configuration support
Select and manage all of products, test software and hardware parameters for each product. Multi-product configuration is supported.

Reports Viewer
Integrated report viewer displays test video, test and the all the results in the software Test Run as PDF. Customers can create customized test reports for each PDF or HTML.

Dynamically load tests
Test up to 1000 dynamically changing complex scenarios for test video and the test management framework, each test is independent during any development, setup and integration.

User management and permission levels
TVI provides test or video, TV offer 3 permission levels: user, manager and admin. Managing video content and software operations with the video and software parameters and test management.

Starter / \$4000	Basic / \$6000	Full / \$8000	Pro / \$10000
1 Full Scenario scenario 10000 10000 test reports (PDF/HTML)	1 Full Scenario scenario 10000 10000 test reports (PDF/HTML)	1 Full Scenario scenario 10000 10000 test reports (PDF/HTML)	1 Full Scenario scenario 10000 10000 test reports (PDF/HTML)

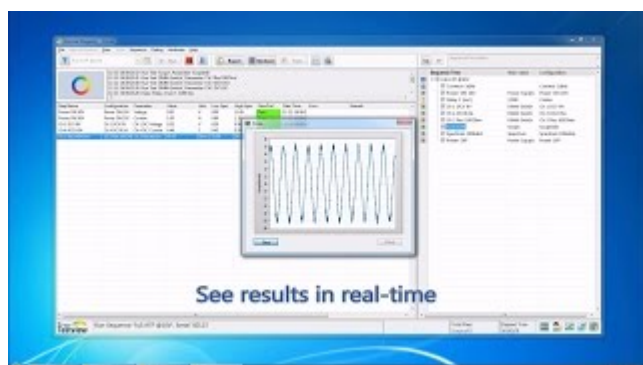

• 1 Full Scenario scenario (PDF/HTML) is available for 10 days after test.
• 10000 test reports (PDF/HTML) are available for 10 days after test.
